

FOR IMMEDIATE RELEASE

**Arizona Army Base Awards Contract to Intellicheck Mobilisa
Yuma Army Proving Ground Joins the List of Defense ID Users**

Port Townsend, WA – April 5, 2010: [Intellicheck Mobilisa](http://www.icmobil.com), Inc. (NYSE AMEX: IDN), a global leader in access control and wireless security systems, received a contract from Yuma Army Proving Ground in Arizona, to provide them with the Defense ID[®] access control system. The value of the contract is \$175,000 for equipment, software, installation, training and warranties.

Utilizing Intellicheck Mobilisa's patented ID reading technology, Defense ID quickly scans various forms of IDs, such as Drivers Licenses, Military ID's or Passports, and instantly compares the data to over 100 "bad guy" lists.

Yuma Army Proving Ground is one of the largest military installations in the world, and is used primarily for testing military equipment, such as artillery, missile and mortar rounds, and improvised explosive devices (IEDs). In addition to the rigorous testing conducted on post, the installation is also an important training ground, used for its realistic desert training to prepare troops for overseas deployments.

"We are very pleased to provide Yuma Army Proving Ground with the Defense ID system," said Dr. Nelson Ludlow, CEO of Intellicheck Mobilisa. "As a leading training post for Army units preparing for their tours in Operation Iraqi Freedom, we are proud they chose Defense ID for screening their visitors and to be assisting them in protecting our troops."

About Intellicheck Mobilisa

Intellicheck Mobilisa is a leading technology company, developing and marketing wireless technology and identity systems for various applications including: mobile and handheld wireless devices for the government, military and commercial markets. Products include the Defense ID system, an advanced ID card access control product currently protecting over 70 military and federal locations, and ID-Check, patented technology that instantly reads, analyzes, and verifies encoded data in magnetic stripes and barcodes on government-issue IDs from U.S. and Canadian jurisdictions for the financial, hospitality and retail markets.
